# Blausee Organic trout

---

The Blausee hosts the ideal source of life for our rainbow- and salmon trouts: The mineral-rich water of Blausee, which also feeds the trout farm, is crystal clear, and of excellent quality. The unique slow growth of the fish as well as our breeding philosophy, "quality before quantity" (annual production of approx. 60 tons) makes the Blausee trout a high-value and pure natural product.

The mineral-rich water of the Blausee, which also feeds the trout farm, is crystal clear, clean mountain spring water of excellent quality. The water temperature of the Blausee constantly remains at around 8°C all year-round. Because the Blausee trout grows as slow in our alpine hatchery as it would in the wild, the result is a very solid and tasty meat.

Our trout will have a strong impact on our menu. We are happy to present you our Blausee trout and Blausee salmon trout in all the different variations. Enjoy your meal!
